

Q.SILVER®

With a backing consisting of a flexible and strong impregnated latex paper, Q.Silver features optimal aggressivity, resulting in fast and efficient stock removal. The high heat endurance of this fully resin bonded abrasive makes it ideal for tough tasks, such as 'down-to-metal' sanding operations, for example in automotive lacquer sanding. The performance in sanding of hard wood and composites is also extremely good.

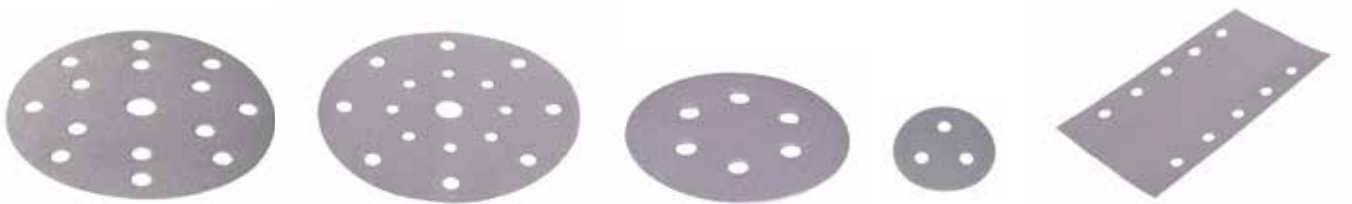

- Optimal aggressivity to achieve fast and efficient stock removal
- Possesses high heat endurance
- A fully resin bonded product
- Extremely good performance in sanding of composites

TECHNICAL SPECIFICATIONS

Technical Data	Q.Silver®
Grain	Aluminium oxide P80 – P500 Silicon carbide 600 – 1500
Bonding	Resin over resin
Backing	P80 – P150 D-paper P180 – P500 C-paper 600 – 1500 B-paper
Coating	Semi-open
Colour	Blueish
Grit	P80 – P320, P400 – P500, 600 – 1500
